

## WELCOME to Prince Philip Park and Bordon

Experience the birth and growth of an extraordinary and vibrant community, taking shape in the midst of one of Hampshire's most prominent urban centers. A thrilling new development, promising to ignite your senses and captivate your heart. Come and discover a world of endless potential and boundless adventure, in a community unlike any other.

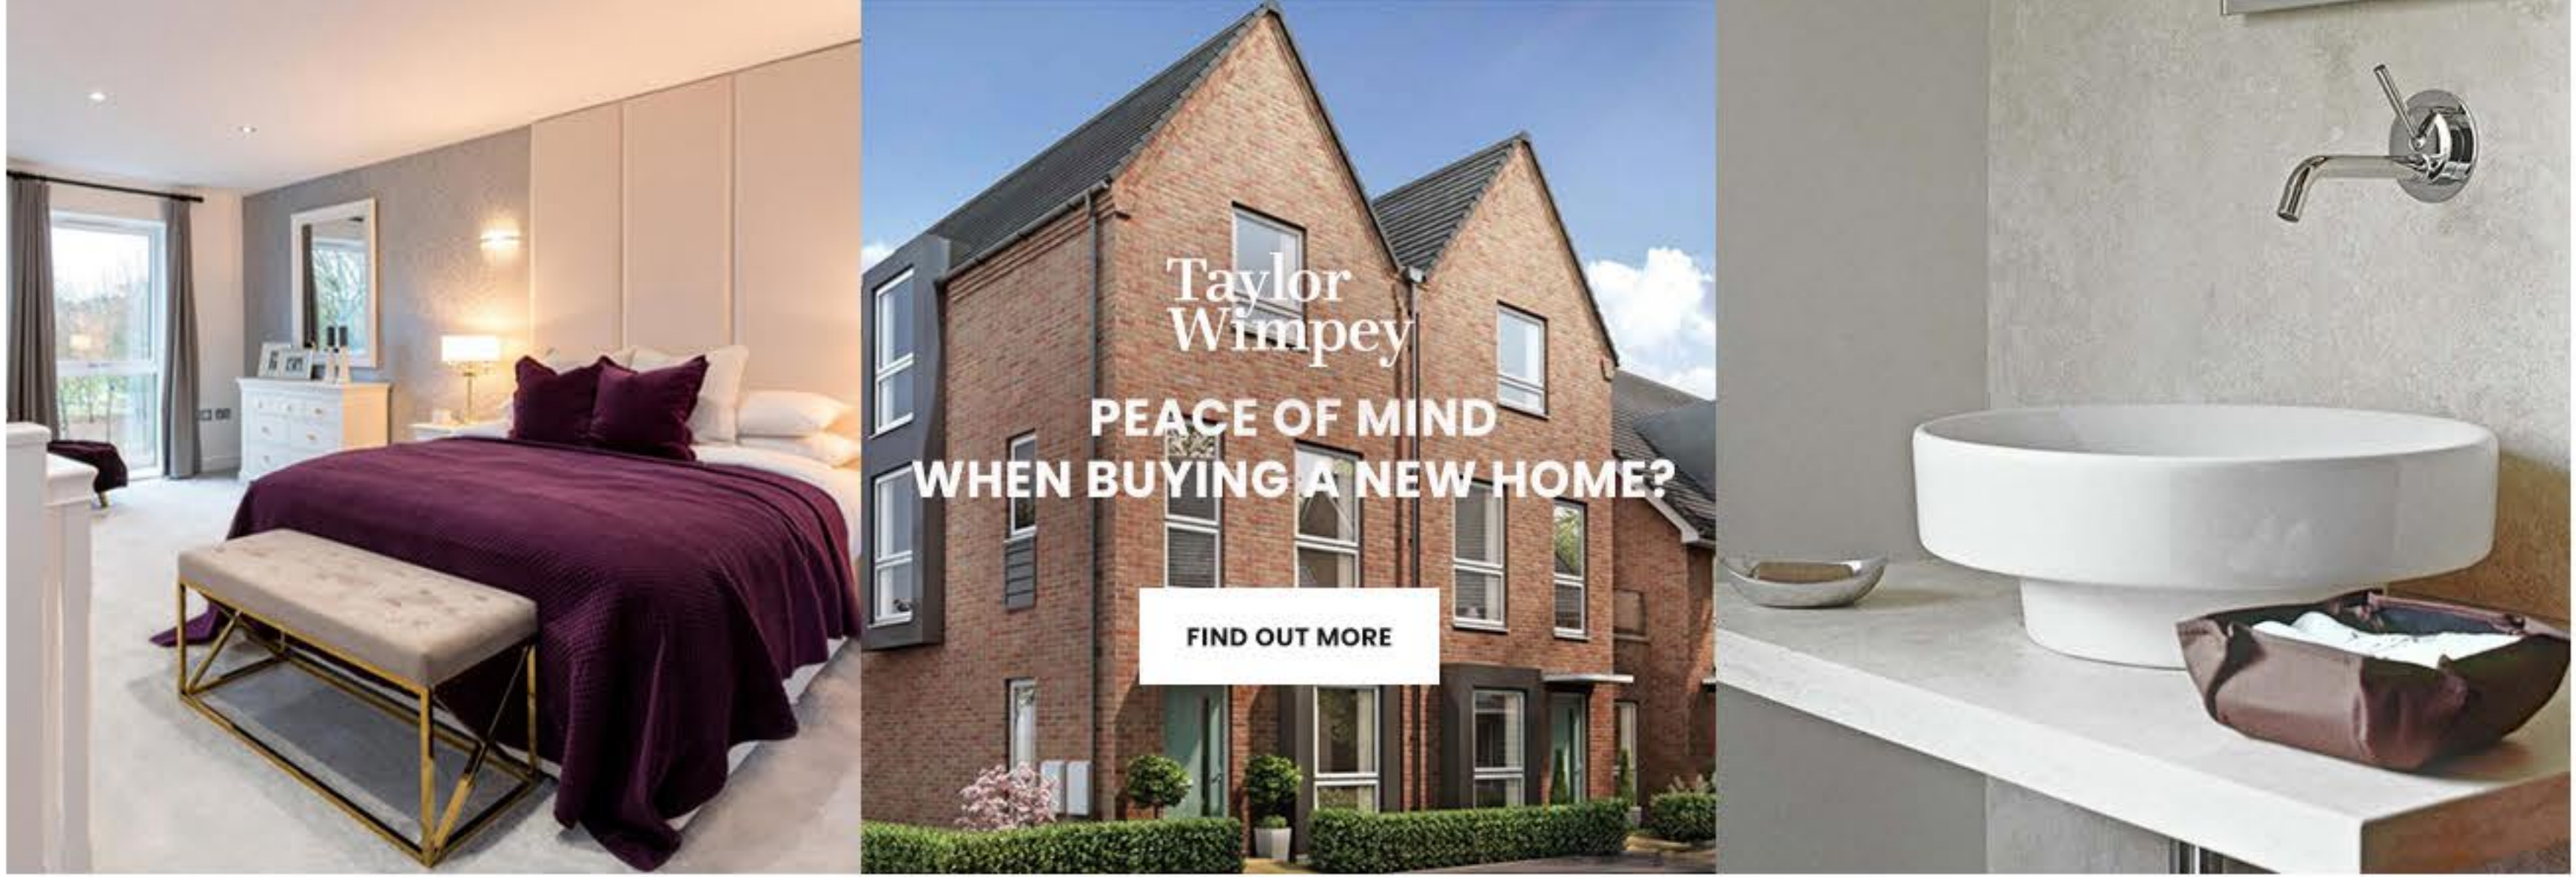

The Prince Philip Park is a thrilling part of one of the UK's largest and most innovative urban renewal initiatives. This endeavor aims to foster sustainable growth in Whitehill & Bordon by elevating the community from its historic population of 14,000 to over 23,000. Our aspiration is to **establish Whitehill & Bordon as one of the most desirable places to live, work, and play** in the area.

The Whitehill & Bordon Regeneration Company (WBRC), a collaboration between Dorchester Regeneration and Taylor Wimpey, has been tasked by the Defence Infrastructure Organisation with redeveloping the former Prince Philip barracks located in Whitehill & Bordon.

### Community & Opportunities 2023

As much as constructing new homes and buildings, creating new neighborhoods involves building a community. Our Community Trust plays a crucial role in developing, supporting, and engaging with the community, where existing and new spaces will host various activities to bring people together. **The Whitehill & Bordon Regeneration Company is dedicated to community engagement** and holds regular Question Time sessions in addition to wider Community Consultations. These sessions provide an opportunity for the community to hear from the Project and Development team at Prince Philip Park and ask questions regarding the topics.
